## Thermal Imaging & Policy Enforcement

Anonymous Thermal Imaging + Compliance Reporting + Access Control

### Contactless

Anonymous Infrared  
Thermography  
Temperature Reading

Accuracy:  $\pm 0.3^{\circ}\text{F}$  Thermometry  
Distance: 1ft-6ft

Infrared Facial Rec  
& Liveness Detection

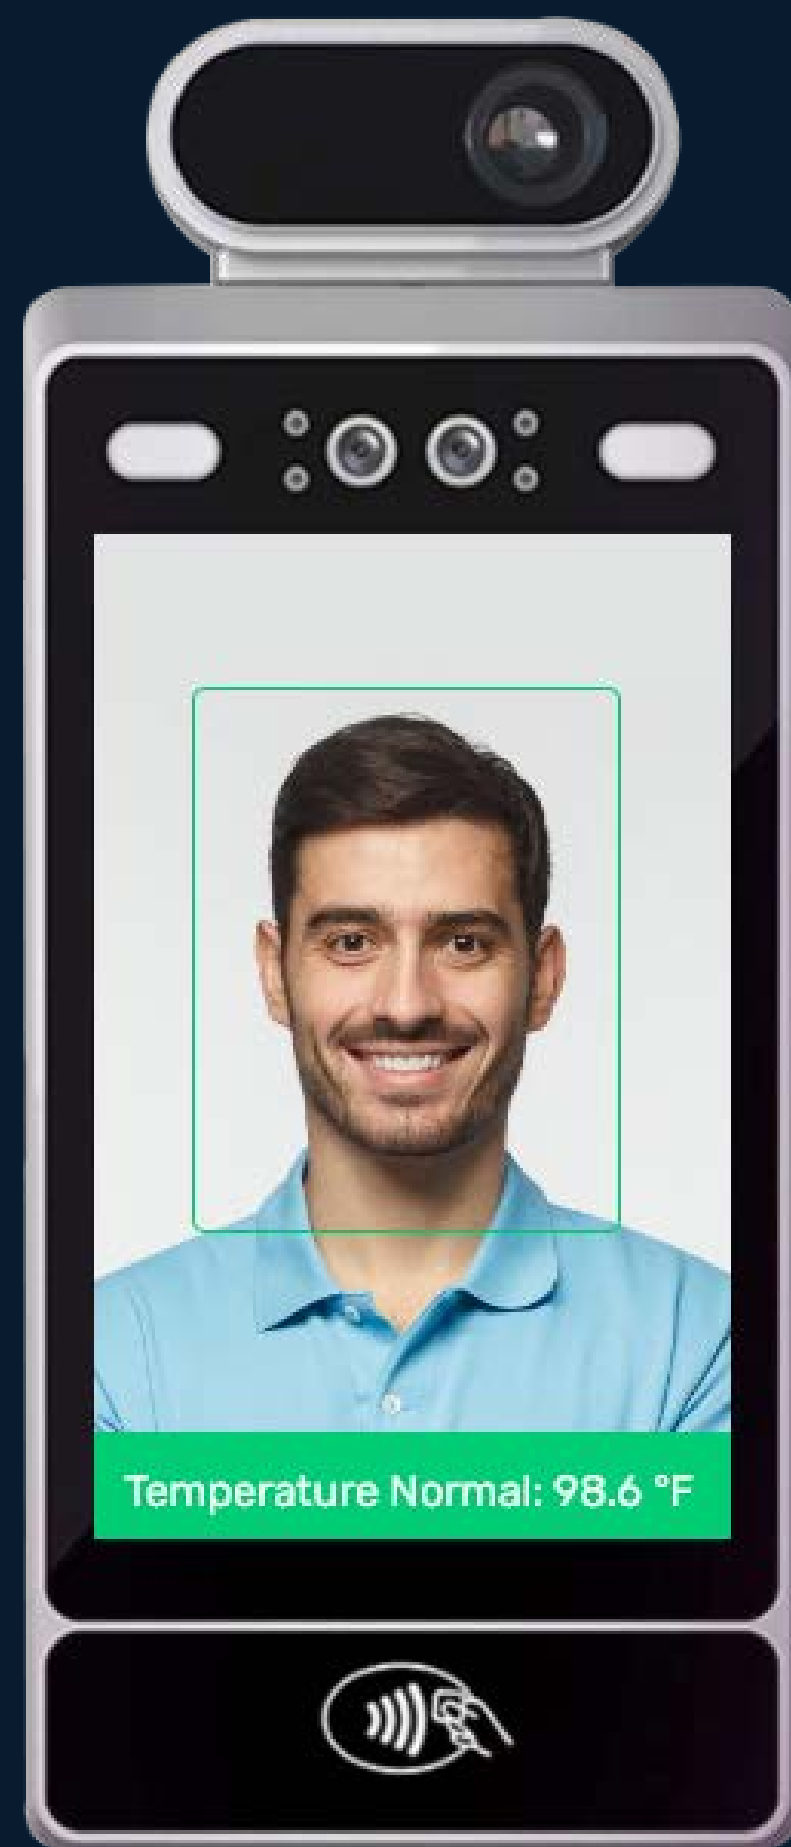

Recognition Rate >99.995%

8 Inch  
Touch Screen

Real-Time  
Temperature Display

NFC, RFID, Bluetooth  
& QR Code

Integrates with Access Control

Healthcare

Arena

Hotel

School

Factory

Office

# Configurable Experiences

## Enabled with Configurable Experiences Right at your Fingertips

CERTIFY provides a plethora of customizable experiences that can be selected and managed from the CERTIFY.me Cloud or from the SnapXT Device. Workflows are configurable by you or your team with just one touch and available at the SnapXT Device level enabling you to provide seamless Customer, Staff, Visitor & Vendor Thermal Imaging experiences, all reporting into the CERTIFY.me Cloud.

### Anonymous and Identified Experiences

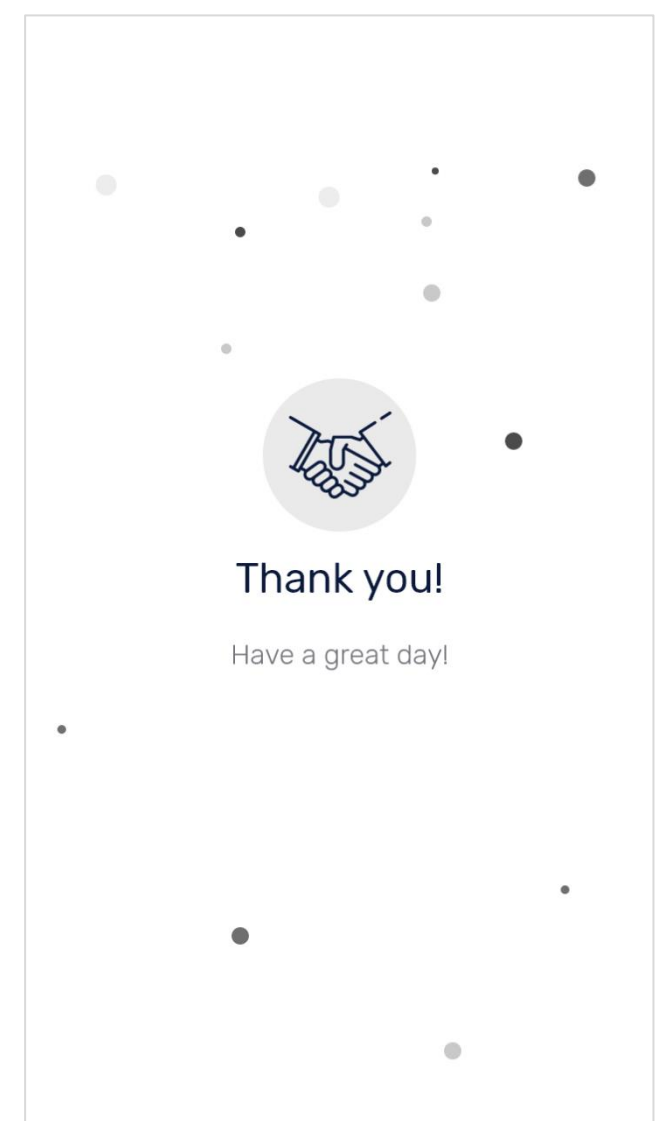

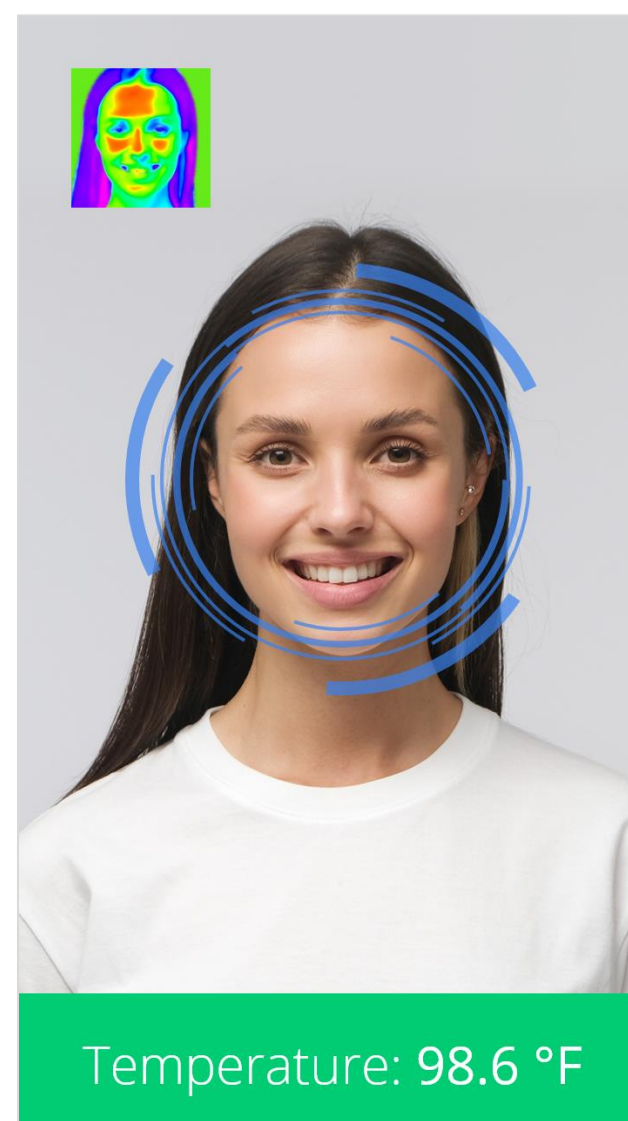

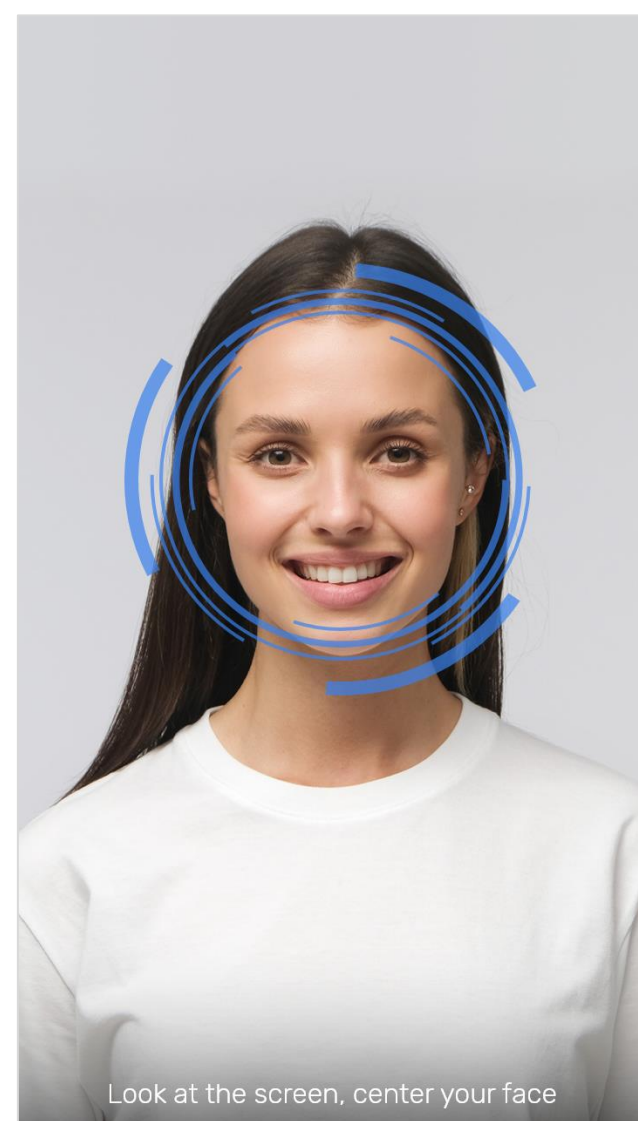

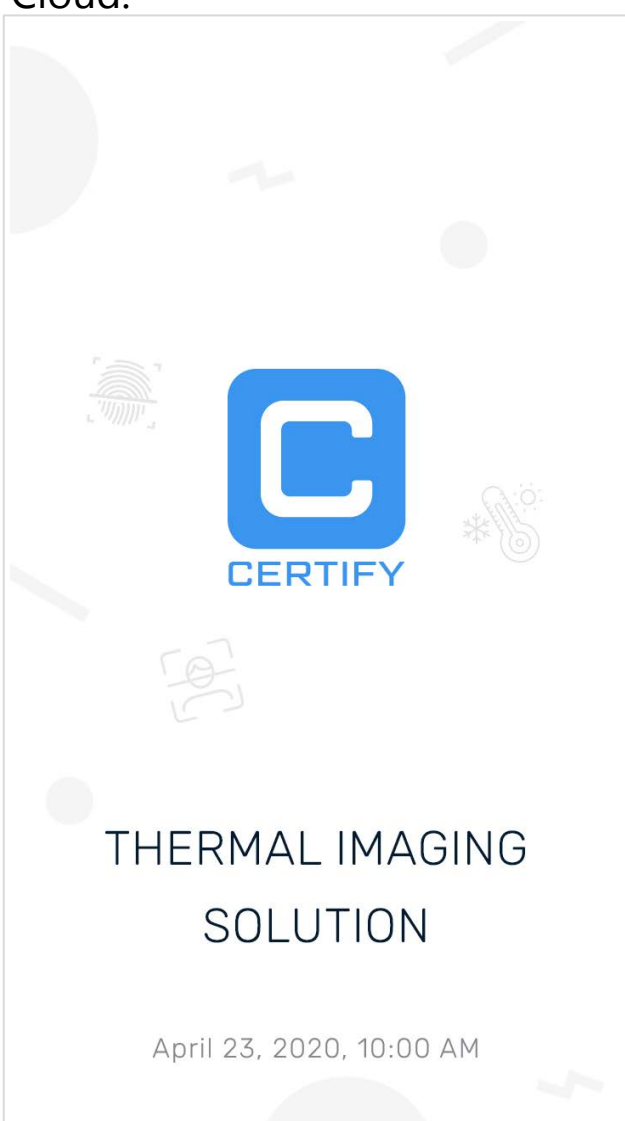

- ✓ **Anonymous:** Thermal Imaging, Display Temp, Customized On-Screen Messages
- ✓ **Semi-Anonymous:** Thermal Imaging, Display Temp, Customized On-Screen Messages, High-Temperature Image Capture
- ✓ **Identified:** Thermal Imaging, Facial Recognition, Anonymous for Individuals Not Recognized, QR Code for Touchless Registration
- ✓ **Identified:** Access Card/NFC/RFID or QR Code Presentment Followed by a Body Temperature Check
- ✓ **Touchless:** Touchless Self-Enroll from a Member's own Mobile Device followed by Selfie Registration.

### Touchless COVID-19 Compliance & Reporting

- ✓ **Touchless Registration:** You are enabled with Touchless Registration & COVID-19 Symptom Questionnaire Completion & Enforcement.
- ✓ **SMS Link:** You can electronically send a link to your COVID-19 Symptom Questionnaire via SMS or Email; links can be provided to Members before or upon arrival at your location.
- ✓ **QR Code:** Members can Scan a QR Code that is printed and on display at your location. The QR Code would link the Member to your COVID-19 Symptom Questionnaire.
- ✓ **Web Link:** Members can register right from your website by clicking on a button to access your COVID-19 Questionnaire.
- ✓ **QR Code:** Members can Scan your QR Code that would appear on the SnapXT device after a temperature check.

### Anonymous Thermal Imaging Experience Workflow

Experiences can be customized at the Device level or via the CERTIFY.me Platform. Multiple experience can be customized for an organization, i.e. Visitors, Vendors, Patients & Staff call all have unique workflows depending upon device location & settings with all data feeding into the .me Cloud.

**Customizable Landing Page**  
You can customize the landing page with your logo, date and Initial Word Display. This screen can also be defaulted to any language.

**Thermal Imaging**  
During the Thermal Imaging process, an Individual looks at the spinning circle with the scan taking place in less than one second. The CERTIFY Software defaults to performing a temperature reading at the center of an Individual's Forehead.

**Temperature Presentment**  
An Individual's Temperature (F or C) is presented in less than one second. A Green background is presented for In Range Temperatures and a Red background for a Temperature over the Set Threshold.

**Customizable Messaging**  
Post Thermal Presentment, a custom message and logo can be presented to the visitor, vendor, customer, patient or staff member.

# CERTIFY SnapXT™

## Thermal Imaging & Access Management Terminal

### CERTIFY SnapXT™ Technical Specifications

OS	Android
Processor	Dual-Core 1.8GHz+Quad-Core 1.4GHz
Memory	4GB DDR, 16GB eMMC
Display	8-inch, 800*1290
Keys	1 Reset Key
Sensor	Infrared Sensor
Front Camera	Dual Lens Camera (RGB+IR), 2MP+1.3MP
Fill Light	White LED
Contactless Reader	ISO14443 Type A/B, Mifare, ISO 18092 Compliant
SIM Slots	1 SIM (4g)
Communications	Ethernet, WiFi, Bluetooth
Body Temperature Measurement	Precision $\pm 0.3^\circ$ , Distance 1ft-6ft
Peripheral Ports	1 DC, 1RJ45, 1 micro USB, 1 Wiegand, 1 RS485
Audio	Dual Audio Speaker, Microphone
Power Supply	12V/2A & POE
Bracket	Wall & Turnstile Mount or Floor or Desk Stands
Dimensions	10.7 in (L) * 5.3 in (W) * 1.2 in (H)
Environmental	Operating Temp: 14°F to 113°F
MDM	Mobile Device Management
Certification	CE

### Features & Benefits

#### Exceptional Performance

- Easy to Implement
- Works Online & Offline
- Real-Time Temperature Notification
- E-Mail & SMS Notification
- 1:10,000 Sub Second Face Matching
- Wi-Fi or Ethernet Connections

#### Unprecedented Reliability

- Part of CERTIFY's Compliant Platform
- 24x7, 365 Live Technical Support
- Plug & Play
- Hosted in Microsoft Azure
- Platform is HIPAA & HITrust Compliant
- Customized Android Apps & Workflows
- Plug & Play Installation
- Integrates into Existing Access Control

### Temperature Reader

### Touchless Temperature Sensor

### Multiple Applications

Example Use Cases

#### Customers

- Touchless Anonymous Customer Temperature Check
- Automatic Front Desk Notification of Temp over Set Threshold
- Self-Enrollment

#### Staff

- Touchless Staff Check In & Temperature Check
- Reportable, Auditable & Compliant
- Auto Notifications can be Sent for Temp over Set Threshold
- Auto Notifications can be Sent for Missed Temp Screening

#### Visitors & Vendors

- Touchless Provider Check In & Temperature Check
- Reportable, Auditable & Compliant
- Auto Notifications can be Sent for Temp over Set Threshold
- Auto Notifications can be Sent for Missed Temp Screening

#### Access Control

- Touchless Temperature Check & Facial Door Access
- Integrated Turnstile Access
- Integrates into Existing Access Control System

#### Where We Provide Value

- Healthcare
- Stadiums & Arenas
- Hotels
- Schools
- Offices
- Buildings
- Factories
- Amusement Parks
- Government
- Colleges
- Shopping
- Restaurants
- Supermarkets
- Senior Living
- Quick Serve
- Reopening the World

# Stand Selection

Stands Specifically Designed for Your Use Case

## WALL MOUNT

**INCLUDED IN PACKAGE PRICE  
+ \$49 FOR ADDITIONAL UNITS**

Our durable wall mounted bracket is perfect for front of door or wall placement.

Mount: 8.1 x 6.5 x 3.5 in, Weight: 1.2 lbs

## POLE MOUNT

**INCLUDED IN PACKAGE PRICE  
+ \$49 FOR ADDITIONAL UNITS**

Our pole mount is perfect for access control gates, buses, trains and built in solutions.

Pole: 8.1 x 6.5 x 3.5 in, Weight: 1.3 lbs

## LIGHT UP DESK STAND

**+\$59 FROM PACKAGE PRICE**

This well constructed light up desk stand is perfect to attract users to the thermal imaging device.

Base: 12 x 12 x 3.5 in, Stand: 9 x 6.4 x 4.7 in, Weight: 7 lbs

## LIGHT UP POLE STAND

**+\$199 FROM PACKAGE PRICE**

This high-end light up pole stand is perfect to help users notice thermal imaging device.

Pole: 12 x 12 x 45 in, Stand: 9 x 6.4 x 4.7 in, Weight: 18 lbs

### Everything Included

- ✓ CERTIFY SnapXT<sup>®</sup> Application
- ✓ Anonymous Thermal Imaging
- ✓ Binocular Camera with IR
- ✓ Access Control Capable
- ✓ Leading Facial Recognition Algorithm
- ✓ NFC, RFID, Bluetooth, 4g & QR Code
- ✓ Liveliness Detection
- ✓ Customizable Workflows
- ✓ Multi-Lingual
- ✓ Hardware Warranty
- ✓ Hardware Support
- ✓ Works in Online & Offline Modes
- ✓ Plug & Play Implementation
- ✓ Ports for Ethernet & Access Control
- ✓ Power Supply

### Capabilities Include

- ✓ Microsoft Azure Hosted
- ✓ HITrust & HIPAA Compliant
- ✓ Omnichannel Management
- ✓ Auditable & Compliant
- ✓ Cloud Device Management
- ✓ Advanced Reporting & Analytics
- ✓ Cloud Uploading to Device
- ✓ Cloud Based Settings Management
- ✓ Automated E-Mail & SMS Messaging
- ✓ Add On Marketplace
- ✓ Customizable Workflows
- ✓ Multi-Lingual
- ✓ 24x7/365 Live Support
- ✓ API Interfaces
- ✓ User Management

Local Taxes (VAT, GST, etc.) will be collected in addition to the pricing above.

\*Please note that this device solely serves to provide an initial body temperature reading. This temperature measurement should never be solely or primarily relied upon to diagnose or exclude a diagnosis of COVID-19, or any other medical condition. Any detected elevated body temperature sensed by this device should be confirmed by secondary evaluation methods, including but not limited to a non-contact infrared thermometer, clinical grade contact thermometer, and/or diagnostic consultation with a qualified medical professional.
